What were / are your buy to let investment aims?

I had no real aims I just wanted to get my money working for me. Now with my first property being so easy with Grant Property I would be looking to invest in more as soon as possible. I came to Grant Property with no property investment experience they guided me at every stage give me my options at every stage. They made everything very easy which is exactly what I needed as I'm overseas. Really happy with Grant Property and will 100% be using them in the future.

How many buy to let properties do you now own?
